Subject: New Forest Design Plan

Hyde Parish Council considered the New Forest Inclosure Design Plan at its parish meeting on Wednesday July 12th.

It was agreed to respond to note that the Parish Council approve of the gradual approach taken and that over the next 10 years there was nothing of concern proposed for the Parish.

The long term planning appears to be good (no clear felling).

The Parish would be interested to know what the alternative sources of income were and whether there will be a net loss of jobs.

Kind regards

Martine
