

## **New Forest District Council Local Plan 2016 – 2036 Part 1: Planning Strategy**

### **Comments from Hyde Parish Council**

Discussion took place about the document and the level of response required. It was agreed that it was positively prepared, justified, effective and to the best of our knowledge consistent with National Policy. It was agreed not to raise an objection but to note concerns about environmental issues DM3 SANGS (Impact on the Forest) and Policy 10 Air Quality (particularly along Roger Penny Way). It was also agreed to note that community concerns raised but not covered by the plan, include the increased pressure on the roads, schools and medical facilities/services.

JM Arigho
